

Legacy support

Information packs can be provided to be placed in the church. A support session to help a PCC create a legacy policy can also be arranged.

Common Fund....What's the Point?

An informative session that explains how the Common Fund is calculated. This presentation puts giving into a wider context, and encourages the audience to appreciate benefits that extend beyond the mission and ministry in their localized context.

Giving For Life-Continuing the Journey

This PCC led discipleship programme prompts a review of stewardship strategy.

Promotion materials

When a parish books any of the sessions given above, promotion materials can be sent in the post in advance.

PCC/Mission Community Stewardship Planning Session

This is often an excellent place to start. The session creates a productive and creative opportunity to review the current state of play with regards to stewardship and the management of resources. By using popular managerial analysis techniques, church officials are encouraged to talk to each other about possible strategies to promote sacrificial giving within their communities. This reflective session gives scope to plan ahead and access continued support.

Giving in Grace

Since 2005, Giving in Grace has been used extensively in a range of churches and traditions. With careful and prayerful planning, this fully resourced stewardship programme, now revised and simplified, will yield financial resources for mission and help build a culture of generous discipleship. See <http://www.givinginGrace.org/> to learn more.

Six Steps of Christian Giving

A one-hour workshop which focuses on our call to discipleship and the responsibility to give sacrificially in all areas of our lives. Includes activities, Bible study clips and a prayer aid to take home.

Address during a Service

Using the lectionary reading as a starting point, I can come and talk to the congregation about sacrificial giving. This is very popular and needs to be booked in advance to avoid disappointment. I have experience in preaching in a variety of churches and can adapt my presentation style accordingly. I would recommend booking a Six Steps of Christian Giving workshop to follow the service. Congregation members can then choose to attend based upon what they have heard.

Co-ordinated Rollout of Parish Giving Scheme

PGS presentations can be delivered during PCC meetings or services. Publicity is provided, and a bespoke rollout plan can be discussed and created.

TRIO

The TRIO (The Responsibility Is Ours) stewardship programme has been specifically designed for parishes that are having difficulty matching income to expenditure. The approach is pragmatic without being patronising.
