

THY KINGDOM COME

ORIGAMI TEMPLATE

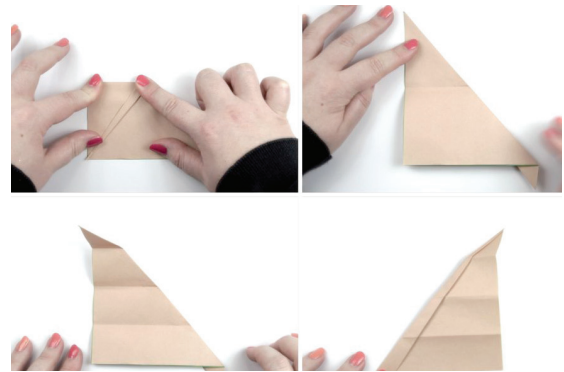

STAGE ONE

1. Start with your paper color side up, this color or pattern will be the colour of the leaf.
2. Fold your paper diagonally in half, bring the top left corner down to the bottom right corner and crease well.
3. Next, make another crease, starting from the top right point, down to the bottom left point, the section should become larger towards the bottom left.
4. Flip the paper to the other side, from left to right.

STAGE TWO

5. Fold the top point down to the bottom left corner and crease well.
6. Next, fold the top point and bottom edge to the crease you just made.
7. After unfolding, this is what you should have.
8. Flip the paper over to the other side, from left to right. You now have four horizontal mountain folds.

STAGE THREE

9. Next you'll need to make four creases in between the mountain folds.

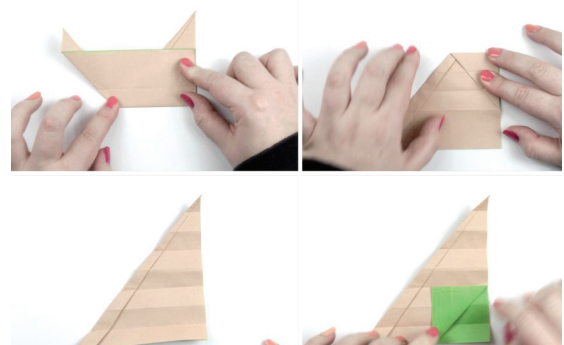

Bring the bottom edge up to the first crease from the top. Unfold

10. Bring the top point down to the first crease from the bottom.

11. Next fold the top and bottom to the nearest crease. This makes eight equal sections.

12. Now it is time to make the leaf shape. You can do this several ways to achieve different shapes. This one will be generally rounded.

Fold the top layer of the bottom right corner inwards, aligning along the third horizontal crease from the bottom.

STAGE FOUR

13. Round out the leaf further as shown.

14. Next, flip the leaf over to the other side and repeat the same steps on that side. If you want a non-symmetrical look, make it a bit different.

15. Now you can open out the leaf and it's now complete!
